Beginning Wednesday August 18, 2010, a segment of Garver Street between Berry Road and Pickard Avenue will be closed for the installation of a single speed table. There will be a short evaluation period after this construction before 2 other speed tables are installed. The construction is part of a City of Norman Traffic Calming Program project requested by residents. Local access will be maintained at all times for residences adjacent to the work site. Rudy Construction Company will be performing the work which should take 2 to 3 days for the original installation.
